PRINCE ALBERT, N. W. T., May 25.—On Saturday afternoon two men arrived here in a buggy, carrying a white flag. They were identified as being the nephew to Poundmaker, and Robert Jefferson, Indian instructor of that chief. Jefferson has been held by the Indians as a prisoner since the commencement of the trouble. He produced a letter from Poundmaker, in which the latter was offering to surrender, and to make a treaty with the government. The two men, with a couple of scouts, were sent with it to the general. The general, however, said while here that Poundmaker was at Eagle Hills, forty or fifty miles distant, with 300 Indians, with whom he was on a way to Batoche when the general arrived with information of Riel's defeat. Poundmaker was much incensed at Riel, who he accused of misleading him.

During Saturday afternoon the general had gone with the two messengers returned, having overtaken the steamer thirty miles up the river. They said the general told Poundmaker that the general could not make a treaty with him, and that he would be sent to drive them from their reserves and punish them.

Dumont is still in the Buck Hill with a few followers, and is defiant.
